

I am opposed to the Consumer Bankers Association request in docket # 02-278 - please enforce the law in Indiana as it stands.

I understand having to listen to advertising on radio and TV because advertising pays for the programs I enjoy. However, I don't like advertisers costing me money by using equipment I pay for (telephone, fax, and email) and wasting my time trying to sell me something that I don't want and am not even interested in. The Indiana law has made dinner time with my family much more enjoyable.

Thanks.
